

AP11S/T & AP12S/T

Aqua-Pure models AP11S/T and AP12S/T treat water in homes with standard flow rates. Both are rugged and robust in design with positive piston seal to ensure cartridges will seal without bypass. Suitable for point of use or point of entry applications with suitable cartridges. Installation is on the cold water line supplied by either municipal systems or a well. If drawn from a well, the filter must be installed after the pressure tank.

To change the filter cartridge, simply shut off the inlet and outlet valves and press the relief button on top of the filter head to relieve pressure. Unscrew the filter housing from the head and remove the used cartridge from the sump. New cartridges slip into place easily. Cartridges should be replaced every 12 months.

“For great tasting water in your home”

As used in thousands of homes worldwide for residential, commercial and light industrial applications.

replacement cartridges for:-

Aqua-Pure water filter housings AP11S, AP11T, AP12S & AP12T

Note: Cartridges must be purchased separately

Standard replacement cartridges

Reduces:-

Aqua-Pure® WATER PURIFIERS

water filter housings

3 year
warranty
*excludes cartridges

29-APUT1112ST (052)

- reduces
- sediment • dirt • rust • taste • odour • cysts
- (with appropriate cartridges)

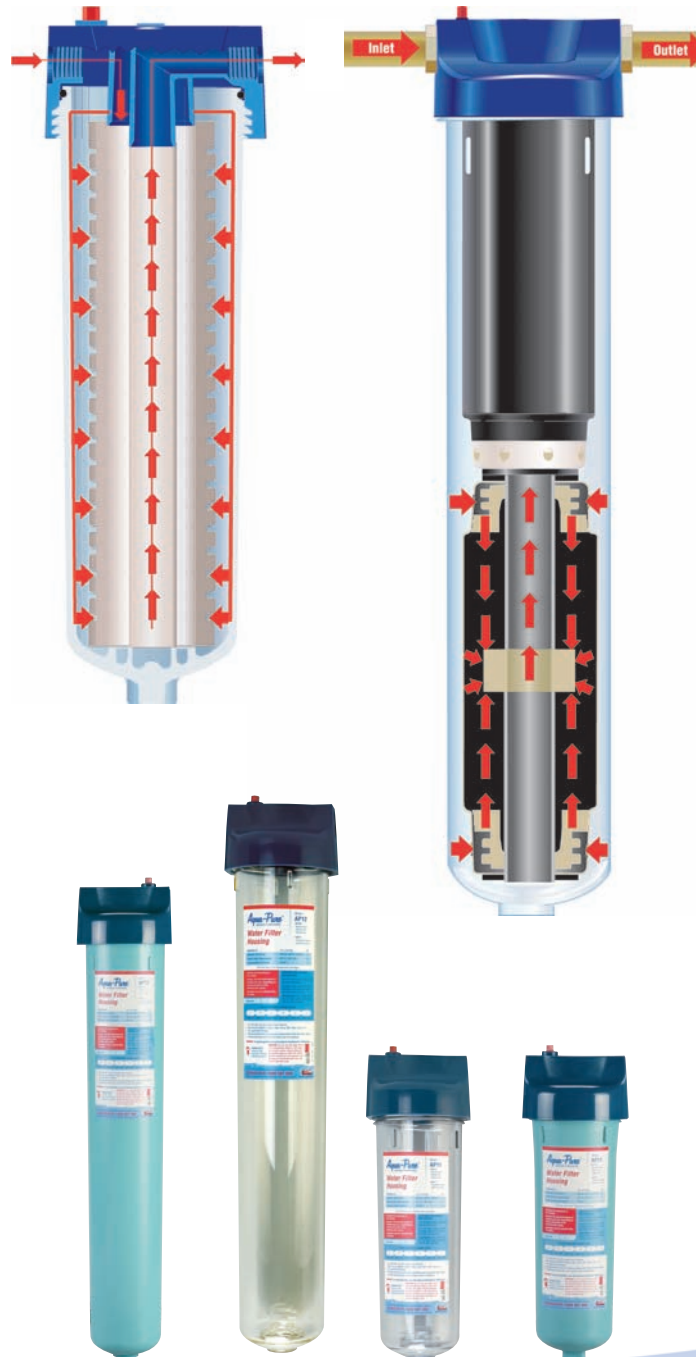

AP11S/T & AP12S/T

features

- pressure relief button for quick, easy built-in cartridge replacement
- pressure tested, high impact plastic design
- made of food grade materials
- "Aqua-Grip" filter wrench included
- mounting bracket included
- choice of transparent or opaque filter housings
- complete installation instructions supplied
- 3 year limited warranty
- Australian Standards certification
- high flow, dual cartridge system incorporated in models AP12S & AP12T

product specifications

In/Out	3/4" BSPT
Max temp	40°C
Max pressure	125psi
Flow rate AP11S/T	≤ 15lpm
Flow rate AP12S/T	≤ 30lpm

AP11S/T & AP12S/T

benefits

- provides clean fresh water to all taps and appliances
- eliminates stains on fixtures and clothing caused by dirt and rust in water
- extends the life of appliances, faucets and fixtures by removing abrasive dirt, grit and sand
- protection against pressure surges and water hammer
- for high water demand applications, less frequent cartridge changes
- for long life dirt/rust, high adsorption taste/odour, or scale inhibitor cartridges.
- fast, effortless sump removal for changing cartridges
- suitable for drinking, cooking and all food applications
- transparent housing for convenient viewing of cartridge condition or UV resistant opaque housing for outdoor use
- conforms to public health regulations for water purification
- proven system design and long term manufacturers support and service
- simple to install

S model - Blue opaque sump
T model - Transparent sump
